Kevin

Thanks for this and appreciate the input. However, the wording we have been using is expressly tied out with our Legal team, so I believe we're going to continue to use the forms of words we have tied off with them.

Thanks very much

Rob

Please find the below example of addressing the Autonomy disclosure.

Kevin

In connection with the annual impairment review process conducted in the fourth quarter, HP recognized goodwill and intangible asset impairment charges of \$8.8 billion related to the Autonomy business. The charges result primarily from decreases to the expected long term revenue growth and profitability rates of the Autonomy business coupled with higher discounts rates utilized in the fair value estimates. A significant element of the decrease to the long term profitability and revenue growth estimates stem from(insert terminology related to the identified predecessor inappropriate accounting practices and misrepresentations) .

Subject: LATEST DRAFT PRESS RELEASE

Morning Cathie

Please find attached the updated draft of the release. Adeel is driving the review cycles with Comms & EFR, although we already had one round of EFR input into the version we shared yesterday.

I'll also be sending this, with the other materials, to Kevin Asher too. Am working through the consolidation of the various threads of the Q&A this morning, and am reviewing the latest turn of Meg's script later today with Henry & Howard
Cheers
Rob
